Experience

Cheese Expert / Sandwiches Creative Consultant

Cheeeese! / Fromagerie de la Bascule

February 2010 - Present. (Horeca)

Using my sense of humor and my good mood for customers loyalty, I not only became a cheese expert as well but also a good commercial too! But the creation was not very far either. I was able to create many various sandwiches for hungry connoisseurs. And responsibilities came when I had to manage the cheese factory. All was done with love & happiness!
